THE CLASS OF '98.

Commencement Exercises of the Bellefonte High School.

THERE WERE FIFTEEN GRADUATES

An Eloquent Address to Graduates Delivered by Rev. M. L. Ganoe of Altoona —Took Place in Garman's Opera House.

INTERESTING TALK BY D. F. FORTNEY

The annual commencement of the Bellefonte High school, class of '98, was held in Garman's opera house Thursday afternoon and evening.

It was the fifteenth in the history of the school and it is unnecessary to say it proved very successful.

As is always the case on this occasion there was a large attendance of friends of the young graduates and those interested in education and the house was packed to the doors both morning and evening.

The exercises in the afternoon began at 2:30 and the scene presented when the curtain went up was indeed a brilliant one. There sat the fifteen young graduates the girls looking fairly charming dressed in white organdies and the young men looking proud and handsome in their best bib and tucker.

The stage was beautifully decorated with flags and bunting and adorned with lovely flowers and potted plants. At the rear of the stage three beautiful flags were hung. The class colors orange and black, between the Cuban and American flags. Over the front of the stage on orange and black was the class motto "Per Angusta ad Augusta." The pillars at the side of the stage and the gallery were also draped very tastefully with intermingled colors.

On the stage besides the graduates were seated the teachers and school directors looking as prim as you please. We would like to go into particulars as to the merits of each participant in these exercises, but space will not permit us, and then they were all so good that what you would say about one would apply to all. We will say however that this class was one of the best and most efficient ever sent out by the Bellefonte High school. We might specially mention Earle Aikens, Samuel McClure, William J. Dorworth, and Misses. Lizzie Faxon, Henrietta Wright and Daisy Keichline.

The following program.

In the evening the opera house was again crowded to its utmost capacity. After a selection by the orchestra. Rev. *M.* L. Ganoe, of Altoona, was introduced to the audience to make the annual address to the graduates. This learned divine is one of the leading ministers of the Methodist Episcopal church. He is an eloquent talker and delivered on this occasion one of the finest addresses ever heard in Bellefonte. His production showed much care and thought in its preparation and contained some most excellent advice which if followed out by the young graduates cannot help but do them good.

D. F. Fortney Esq., then made a neat address to the graduates in which he gave them much good advice, which if followed will lead to success. He then presented them with their certificates which they had worked so hard for. After music by the orchestra the audience was dismissed by Rev. W. *A.* Stephens,with the benediction.

OREGON ELECTION.

Sweeping Republican Gains.

The Republicans won a decisive victory in Oregon last Monday.

As near as can be computed from the returns at hand, the Republicans will have sixty-nine members of the next Legislature, twenty four in the Senate and forty five in the House.

Against them there will be twenty one Fusionists, *D*emocrats and Populists, giving the Republicans forty eight majority on joint ballot. This means the retirement of ex Senator John H. Mitchell, the aspirant for the Senatorial honor from active politics, and the election of a gold standard man to the only vacancy existing in the United States Senate.

Returns from twenty five out of the thirty two counties of the State, show that Geer, Republican, for Governor, will have about 10,000 plurality. Moody, Republican for Congress, in the Second District, will have a plurality approaching 5000. Tongue, Republican, is re elected to Congress from the First District by more than 2000 plurality.

The most important feature of the Oregon victory, is the positive proof it affords of the fact that the people of that State are for sound money. The platform was clear and outspoken on that point this year for the first time since the silver question became prominent. Without any shuffling or evasion, it condemned the free coinage of silver. As a resnlt, the Repnblicans have a large majority, though the Fusionists, which include the Democrats and the other free silver men, carried the State for a Presidential Elector in 1896. The same combination has been badly defeated this year.

Dined by Cassatt.

Philadelphia, June 4.--Secretary of War Alger and Captain Mahan, of the Naval Strategy Board, were the guests of honor at the dinner of the Farmers' Club, given at A.J. Cassatt's Chesterbrook farm near Berwyn, Pa. No speeches were made. Immediately after the dinner Secretary Alger and Captain Mahan returned to Washington. Among the others participating at the dinner were President Frank Thompson, of the Pennsylvania Railroad- Clement A. Griscom, President of the International Navigation Company; ex-Minister to Italy, Wayne MacVeagh; General Edward Morrell, E. P. Wilbur, Frederick Fraley, Justice Green, of the State Supreme Court, and Judge Biddle, of the Common Pleas Court.

Big Breech-Loading Rifles.

Bethlehem, Pa., June 7.—The Bethlehem iron company to-night finished and shipped to Fortress Monroe four breech-loading rifles weighing 275,000 pounds, and four turret plates and hatch covers for the battleship Kearsarge to Newport News, weighing forty tons.

A LARGE PARADE!

The Hibernians Take Scranton By Storm.

10,000 MEN WERE IN LINE

Union of the Two Branches of the Order Was the Cause of the Outpouring—Permanent Organization To-day.

PARADE WAS TWO MILES LONG.

Scranton, Pa., June 7.—There have been few larger parades in this city than that of the Ancient Order of Hibernians this afternoon. All the members attending the state convention of the order here participated, but the great number of marchers were in the divisions, America and Erin, from all over this section of the state.

There were at least 10,000 men in line and not less than five bands or drum corps for each thousand paraders. The streets were jammed with onlookers, many of whom came to the city on special excursion trains from points far up or down the valley. The marching column was two miles long and occupied fifty-five minutes in passing a given point.

The delegates and others began the day by attending a pontifical high mass in St. Peter's cathedral. *R*ight Rev. Bishop Hoban was celebrant of the mass. The assisting priests were from among those regularly attached to the cathedral parish. Among other priests present in the sanctuary were: Rev. T. F. Coffey, of Carbondale; Rev. R. C. Andrews, of Wilkesbarre; Rev. Henry Burke, of Hazleton; Rev. P. *C.* Hurst, of Overton; Rev. T. F. Brehony, of Eckley; Rev. M. F. Crane, of Avoca, and Rev. T. P. Fagan, of Great Bend. The large cathedral choir sang Cimarosa's mass. They were assisted by Bauer's orchestra. After the mass Bishop Hoban addressed the visitors. He extended to the delegates to the United Ancient Order convention as well as to the Daughters of Erin a sincere welcome to the city of Scranton. "I hope *G*od will bless and cement the union you have this day effected," he said.

"This truly Catholic and truly Irish movement, joined to a loyalty to the United states, must redound to the greater glory of *G*od."

After the mass a public meeting was held in St. Thomas' college hall. Addresses were made by Judge *P.* P. Smith, of the superior court; Judge F. W. *G*unster, of the county court; *J*udge M. F. Wilbere of Philadelphia: City Solicitor M. A Mc*G*inley, City Treasurer C. G Boland, James Moir, president of common council; Hon. John P. Quinnan, exacting state chirman of the board of Erin. and others.

Immediately after the parade the delegates met in the first union session of the two boards. Acting Chairman Quinnan, of the Board of Erin, presided as temporary chairman, that duty having been decided by lot between him and President *O'*Neil, of the Board of America. The latter became temporary secretary. The roll as arranged by the committee on credentials was called and an adjournment was made to 9 o'clock tomorrow morning, when a permanent organization will be effected and other important buisness transacted.

Bank Failure.

Washington, June 7.—The comptroller of the currency has received a telegraph announcing the failure of the Delaware National Bank, of Delbi, New York. In its last report the bank had individual deposits amounting the $298.979, and a surplus of $17,746. The capital of the bank was 100,000. The failure is said to be due to excessive loans.

SANTIAGO FORTS ARE SILENCED!

Two Spanish Ships, Maria Teresa and Reina Mercedes Sunk By Sampson's Shells.

250 SPANIARDS WERE KILLED

Shot and Shell Rained Down on Santiago Monday—Vessels From Two of Uncle Sam's Fleets Combine.

TROUBLE LASTED FOR THREE HOURS

Mole St. Nicholas, Hayti, June 7—Victory again rests upon the arms of the United States. This time it is Admiral Sampson who has had the honor and glory of defeating the Spaniard. It took the squadron under his command just two hours and fifty minutes yesterday to sink two Spanish ships and ruin and silence the old though much bruited fortification of Santiago.

The bombardment, which was begun by the American vessels at 7:10 o'clock in the morning, was most terrific and effective. From their land fortifications and from the warships commanded by Admiral Cervera, the Spaniards vigorously responded to the cannonading of the Americans. It was, however, a weaker force coping with a stronger.

One by one the fortifications of Spain was ruined and silenced. Even old Morro, which Admiral Sampson had ordered his guns to spare, it having been stated to him that the heroic Hobson and his seven followers were confined there, was hit by several 13-inch projectiles and practically demolished.

During the first hour of the bombardment the cruiser Maria Teresa, which had been raining a continuous fire without serious results, however, at the battleship Massachusetts, becameemboldened and steamed towards the mouth of the harbor. The movement was fatal. A 13-inch projectile from the big American battleship struck the Spaniards amidships and fatally crippeled her.

The Spanish admiral, seeing that the Maria Teresa was about to sink, ordered the Cristobal Colon to take off her crew. The order came none too soon. Two minutes after the last man had left the ship she gave a lurch and sank into the murky water of the harbor.

Soon after this the Spanish second-class cruiser Reina Mercedes was attacked by the battleship Oregon. She responded with a few four and six pound shots, the effect of which may be linked to a small boy setting off fire crackers under the belly of an elephant. The Oregon let go a couple 13-inch shells which tore the Reina Mercedes into shreds.

Her crew abandoned her instantly. They were not all able to get into small boats and many of them had to jump into the harbor and swim for their lives. Five men had been killed aboard the vessel and their bodies were seen on the deck as she sank.

It is known that many Spaniards were killed and wounded in the fortifications. In fact a dispatch received here to-night from Santiago, via Cape Haytien, states that 250 Spanish lives were lost and upwards of 300 soldiers and marines were wounded in the combat.

While the naval engagement was at its hottest a battle took place between the American troops and the spanish troops near Daiquiri. The fight was short however. The insurgents had been posted in the neighborhood and with their aid the American marines soon successfully took up a position on shore making it the base of operations.

The Spanish force was defeated with heavy loss and driven back into Santiago, leaving their dead and wounded behind them.

Manila, May 31, via Hong Kong, June 6.—The Spanish outposts have been driven in all along the line, simultaneously and with great slaughter. It is said that over a thousand have been killed. There has been fierce hand to hand fighting for seventy hours, despite the typhoon which is raging.

The violent winds and torrents of rain render the rifles of the Spanish troops unavailing. The natives easily win at every step with their lashing knives.

Hong Kong, June 6.—The correspondent of the Associated Press at Manila under date of June 2, says:

"I have traversed the whole region of fighting during the

JUNIOR ORATORICALS.

High School Students Contest for the Reynolds Prize.

A LARGE AUDIENCE PRESENT

Miss Effie Snyder Wins the First Prize and Mr. Jerry Stine Carries off Second Honors.

IT WAS AN INTERESTING CONTEST.

A large audience gathered in Garman's opera house June 1st to listen to the eighth annual Junior declamatory contest for the Reynold's prize by students from the Bellefonte High school. The scene presented was indeed a brilliant one, the large stage was beautifully adorned with flowers and potted plants and was gracefully draped with the colors so dear to every patriotic heart, the red white and blue.

On the stage besides the contestants were Profs, A. Reist Rutt, Boyd A. *M*usser and Rev. W. A. Stephens. The judges choosen to decide who should receive the prizes were Messrs. Ellis L. Orvis, Charles R. Kurtz and John Blanchard. It was indeed a hard task for them to decide, for each contestant had taken great pains to prepare carefully and certainly all acquited themselves with great credit. Each one was generously applauded as they took their seats and it was hard to tell who was the favorite of the audience.

A pleasant feature of the evening was the delightful music furnished by the famous Vaudeville orchestra. We feel like complimenting them highly for their work. Every one in this wonderful orchestra is a star of the first magnitude.

The programme rendered was as follows:

1. Declamation, Regulus to the Carthagenians, Jerry Stine.
2. Declamation, Our Territorial Expansion, Frank Shroyer.
3. Recitation, Mrs. Caudle's Views on *M*asonry, *M*illie Barnhart.
4. Recitation, The Russian Christmas, Effie Snyder.

*M*usic, Orchestra.

5. Declamation, Heroes of the and of Penn, Ward Fleming.
6. Recitation, The Legend, of Bregenz, Helene Williams.
7. Recitation, The Vengeance of the Flag, Helen *M*usser.

*M*usic, Orchestra.

8. Recitation, The Ride of Great-Grandmother Lee, E. Williams.
9. Recitation, The Closing Century, Orian Kline.
10. Recitation, The Responsibility, *M*amie *M*cGarvey.

*M*usic, Orchestra.

The contest being over the judges retired to agree upon their decision. After due deliberation they returned and *M*r. John Blanchard Esq., announced the decision. After complimenting each contestant and speaking of what a hard matter it was to decide in the matter he said they had award the prizes for excellence in memorizing, gestures clearness of articulation and ability to hold the audience. On these merits the 1st prize of $10.00 in gold was awarded to Miss Effie Snyder, and the second prize of $5.00 in gold was give to *M*r. Jerry Stine.

The decisions were received with great enthusiasm and gave general satisfaction to all concerned.

Big Camp at Chickamauga.

Washington, June 6.—It was determined today to place 75,000 troops at Chickamauga, which is to be made a permanent camp. Secretary Alger yesterday gave orders to prepare that camp for the accommodation of that number of men. Chickamauga park being too small for a camp of the size demanded, the park commission was authorized to lease additional ground. This will be the largest camp in the United States. Most, if not all, the troops mustered in under the second call will be sent there for equipment, organization and drill.

AN ELOQUENT ADDRESS.

Delivered By Rev. W. A. Stephens of the Methodist Episcopal Church.

ON MEMORIAL DAY, 1898

At the Services Held by Gregg Post, No 95, G. A. R., in the Union Cemetery—Patriotic References to the War with Spain.

STIRRING TRIBUTE TO DEAD HEROES

(Continued from last week.)

When that idea has had time to take root in the minds of rulers. It will be serving notice not only on Spain but on the Turk and every other miserable tyrant of earth. You must either rule right or forfeit by your failure, your right to rule at all. Then the world will never more see another starving reconcentrado or another Armenian slaughtered because of his religious faith. That proclamation of war will go down in history as fixing the date when the whole world took a step upward.

Yet the savage pride of Spain and her lack of all correct estimate of what true manhood is, has blinded her to the fact that the world has moved up in its ideals and that she has been left behind. So she sits blinking in wonderment and failing to understand because her moral senses are dead; why it is that she should not be allowed to treat her colonies as she pleased. Starve them if she wished, crush them if they complained, laugh at their misery if it pleased her fancy: they are her colonies, Why should the United States intervene? What interest had we in Cuba? Why should we object to her barbarity though right at our doors? Spain does not see it yet. To declare war in the interest of humanity is a thought so for above her low conceptions of right and duty as to be wholly beyond her comprehension.

So Spain wanes from year to year because her manhood is below the modern standard. She had rich colonies in Asiatic islands. Now she has them not. She had fleets that floated guns and brave, though barbarous men. Dewey has sent one of them to the bottom of the sea. Another according to what seems reliable news, is bottled up in Santiago harbor. I hope Schley will put the cork in so tight that they will not get out until they come out flying the American flag. She had Cuba and Porto Rico but now they are gone forever so far as Spain is concerned. Perhaps she may yet learn that "the way of the transgressor is hard" and awake to the value of manhood. If she does and is able to catch the the step of the worlds upward march she may yet have a place among the Nations. If not she is doomed and if not it is well she is. The world has had enough of the kind of history she has made,

I do not say these things in bitterness. They are the facts of history. I do not say these things in a spirit of self-glorying. So far as measuring forces is concerned there is not much glory in whipping Spain. I only say these things that we may learn the lesson these facts plainly each. Spain's ruin is an impoverished manhood We are what we are because of our manhood. And if we would hold our honored place in the forefront of the Nations we must from generation to generation hold up the ideal of true manhood. And produce as the world moves on and up better and still better manhood. Armies may be necessary for secondary ends to maintain our rights among the Nations until the world learns a better way. Navies may be necessary to protect our commerce or stay the hand of tyranny, as we are doing now. But the thing that has given us greatness in the past, that gives us greatness now, that we must depend on for continuing and increasing our greatness in the future, is our American manhood.

But now to get back. What is this decoration of graves, and other services of this occasion but manhood's recognition of the nobility of manhood. These were manly men, and our manhood acknowledges manhood's worth by our presence here. Tis manhood that marks the difference between the soldier who marches and fights for country and flag, and the bounty jumper or the camp follower who fights nothing but his hard tack, and smelling the battle afar off, by some hook or crook manages to get into the hospital or to the rear before the first gun is fired. There must be manhood before there can be the soldier. The soldier can only measure up as a soldier as he measures up in manhood. The fellow who takes his chances of meeting a bullet only because he is certain that he will feel a bayonet from behind if he don't, is not a soldier. You can't drill the true soldier spirit into a fellow who is deficient in manhood. And because of this superior manhood the American soldier is the best all-round soldier in the world. He can fight and whip, if he meets, on equal terms, any soldier of earth.

In the early days of the Rebellion, England's sympathies were largely with the South. She thinks better of us now. But then "Cotton was King." *Her* mills were idle, her millmen suffering. She wanted cotton, and the only way she saw to get cotton was to end the Rebellion, and the only way she saw to end the Rebellion was to aid the rebels Our government believed that England had taken the position she took because she did not correctly understand the situation, and men went over to create sentiment in favor of the North. One of these was Mr. Beecher; everywhere he met immense crowds. But they did not gather to hear what he had to say, but to prevent him from being heard, As soon as he would come on the platform they would howl until they howled themselves out of breath. Then as soon as Mr. Beecher would begin to speak they would howl again. Mr. Beecher, however, was not the man to be howled down, and he would fold his arms and wait until they heard him. At one of these immense meetings this precedure was going on. After howling themselves out of breath and quieting down for the moment, an Englishman, back in the crowd, jumped on a bench and yelled at Mr. Beecher: "Why didn't you put down the Rebellion in three months, as you said you would?" Mr. Beecher hurled back at him the answer: "Because we had to fight Americans. If we had been fighting Englishmen we would." The Englishman admires pluck, and a stroke that goes straight from the shoulder. After that knock-down blow they were ready to hear him.

Mr. Beecher only stated a fact. No such soldiers as the American soldier ever marched with Napoleon or Wellington or Von Moltke, *He* has the stubborn resistance of the German; he has the resolute aggressiveness of the Englishman; he has the impetuous dash of the Frenchman. He possess all the highest qualities of a soldier combined, and these are but the expression of his manhood. He is the best soldier because he has the highest manhood, and we are here today because those whose memory we honor were not only soldiers but patriotic; manly men.

You will pardon me I know for the statement that we are here because, our manhood compels us to thus do honor to manhood. A good while ago Burns wrote "A man's a man for all that." We are coming more and more to value manhood. An incident I saw the other day in a newspaper impressed me very much. A private of a Massachusetts regiment, at Tampa, Florida, was taken dangerously sick with pneumonia. A number of Southern ladies went to the Colonel of the regiment and asked the privilege of taking him to a home where they thought he could be made more comfortable. This could not be done, His illness terminated in death. The ladies of Tampa literally banked his coffin in flowers. And when the time came for the body to be sent back to his New England mother, the Colonel requested that his company march as an escort to the train. The other companies asked permission to join which was granted and the whole regiment marched and with uncovered heads and tearful eyes saw his body on the train and borne away—He was only a Private—but a Major General could have received no greater honor, manhoods recognition of manhood—The Regt., composed of that kind of manhood will keep the flag flying though they have to face all Blanco's forces alone.

That kind of manhood can take care of its self anywhere. *We* will need that kind of men.

The management of the affairs of state are becoming more and more difficult from year to year. Our vast financial interests, manufacturing interests, commercial interests, sometimes conflicting with one another impose many burdens upon our rulers The relations of Labor and Capital demand constant attention. The interests of north and south, east and west, not always in harmony with each other demand constant attention to avoid conflict.

Then this war will compel us as a nation to enter into new and untried relations. The Father of our country exorted us as a nation to avoid all entanglements with foreign governments. This policy has been pursued by us as a nation up to this time. We have steadily refused to become involved in the affairs of other nations. But this war will put us in control of territory not only near our coast as is Cuba and Porto Rico, but also the Philippines on the other side of the earth, nearly 7000 miles from San Francisco. Other nations will be effected and will want their say as to the final disposition of them. It may result in serious complications. It is to early for the wisest man to predict with any certainty what the outcome will be.

But it is safe to say that we will need men of highest character both in the military and civil service to stear our Ship of State clear of the breakers. Our hope is in our manhood, we must continue as we have begun, to be guided by the right. Jingoes must be sent to the rear. Statesmanship must be put to the front. To be a mere partisan now is to fill the place of a traitor. Our petty political differences which we please to magnify by the names of issues, in time of peace, must be put away in "cold storage" until this war and the issues that grow out of it are settled. If they have anything in them, they will keep, but whether they have or not, they must wait, and the man who would inject these discordant elements into national affairs now must be throttled by the indignant manhood of this nation. Our country and our flag now. No more partisan questions till this contract with Spain is settled, with her and the rest of the world.

Now you men of the Grand Army of the Republic. The country needs you now, as it needed you in '61. Years have borne you beyond the period of life that will permit you to again go to the front. But your country needs you never-the-less, your influence in the community in which you live is greater than you perhaps are ready to believe. It is yours to steady the ranks in the home field. To inspire with patriotic purpose those with less experience than yourselves. You are recognized as men, whom country has cost something.

The respect in which you are held makes your word and influence potent in behalf of your country.

I have faith that now, as in the sixties, you will be found on the right side. Make your influence tell in aiding to guide the nation in safe paths, in sustaining the government in right action, and again will be demonstrated as it has been hereto-fore in our history. "That Right Exalteth a Nation" and here at the graves of your comrades and our countrymen let us pledge anew our loyalty to God and Country and Righteousness. Let us promise each to cherish above all our treasures of territory and trade, of manufacture and commerce, of mine and field, that which gives them all value—an enlightened patriotic noble humanity loving, God fearing manhood. While we maintain that; this government, of the people, by the people and for the people cannot perish from the earth. But that flag shall wave on down through the centuries over the land of the free and the home of the brave.

MOTHER! There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it.

Mother's Friend so assists nature in the change taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of **Motherhood.** Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

The men who do daring deeds in battle, are men whose arteries pulsate with the rich, red, vital blood of health. The same is true of the men who win success in the battles of work and business. When a man's liver is sluggish, his digestion impaired, and his stomach weak, his blood soon gets thin and impure. The blood is the stream of life. If it is impure every vital organ in the body is improperly nourished and becomes weak and diseased and fails to perform its proper functions in the economy of life. The victim suffers from loss of appetite and sleep, wind, pain, fulness and swelling of the stomach after meals, bad taste in the mouth, foul breath, imaginary lump of food in the throat, headaches, giddiness, drowsiness, heavy head and costiveness.

All of these conditions and their causes are promptly cured by the use of Doctor Pierce's Golden Medical Discovery. It brings back the keen edge of appetite, makes the digestion perfect and the liver active. It makes rich, red, pure blood, filled with the life-giving elements of the food that build healthy tissues, firm flesh, strong muscles and vibrant nerve fibers. It invigorates and vitalizes the whole body, and imparts mental power and elasticity. It cures 98 per cent. of all cases of consumption, strengthens weak lungs, stops bleeding from lungs, spitting of blood, obstinate lingering coughs and kindred ailments.

Costiveness, constipation and torpidity of the liver are surely, speedily and permanently cured by Dr. Pierce's Pleasant Pellets. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. They stimulate and strengthen the jaded organs until a regular habit is formed and may then be discontinued without a return of the trouble. They stimulate, invigorate and regulate the stomach, liver and bowels. Medicine stores sell them, and have no other pills that "are just as good."

Lutheran League Meets.

LOCK HAVEN, June 2.—The fourth annual convention of the Central District Lutheran League of Centre. Clinton and Union counties was held in Renovo yesterday.

The officers elected were: President, Rev. C. B. Gruver, Lock Haven; vice presidents, Clement Dale, Esq., C. A. Uhler, Renovo; corresponding secretary, W. M. Kerlin, Centre Hall; treasurer, Miss Sarah Klose, of Renovo.

The next meeting will be held at Centre Hall, Centre county,

Don't Bite.

Impostors are at work in the rural districts representing to farmers that they are in the employ of the government as "enrolling officers." The name of the farmer is enrolled and he is notified that he will have to go to the front. Those who do not desire to go are told that if a certain sum of money is paid substitutes can be provided. Of course it is a new swindling scheme. Uncle Sam is not compelling anybody to bear arms.

Seven Sons in the War.

The Sheridan troop, of Tyrone, has a remarkable family of Flecks. They are from Sinking Valley, and are all daring troopers. Lieutenant Thomas M Fleck, the father, was compelled to resign from the troops on account of the death of a son, but has still seven left in the Sheridan troops. One of these is a sergeant, two are corporals, and four privates.

At the White House.

WASHINGTON, June 2.—The president was late in reaching his desk this morning. During the forenoon callers from the two houses of congress were numerous. Though there was no news afloat as to developments at the front there was a profusion of uniforms at the white house, many of the volunteers now stationed at Camp Alger appearing in full uniform among the sightseers who nowadays throng to the office and home of the president.

Insane Over Cigarette Smoking.

Another exhibition of the slavish manner in which the cigarette habit fastens itself upon the victim is afforded in the person of Edwin Dobson, of Exeter, Berks county. The habit became so strong with Dobson that he is known to smoke over 30 packages a day. He is only 24 years old, but he is now a maniac and has been incarcerated in the insane hospital at Harrisburg

A Diminutive Constable.

The smallest constable in the world was appointed by Judge Lynch at Wilkes Barre for Hunlock township, Luzerne county. He is Thomas M Bonham, who is only 49½ inches tall, weighs 81½ pounds and is 48 years old.

Loose clothes and downy cushions bring only a negative sort of comfort to the woman who is suffering with some disease or derangement of the organs distinctly feminine. Some clothes and some positions make the pain and the discomfort seem less. Perhaps the nerves are most affected and this in turn disturbs the digestion. Nothing will ever completely relieve but a radical cure. The start of so-called "complaints" may be a very slight thing indeed. It may be that in the beginning some small hygienic measures would stop the trouble Certainly at this time, a little bit of the right medicine would stop it. When the trouble becomes worse, it is harder to cure, but still it can be cured. Dr. Pierce's Favorite Prescription will positively cure any trouble of this character. It may be absolutely relied upon. It affords lasting relief to a woman whose natural modesty has kept her from consulting a physician.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

A Chance for Us to Compete.

WASHINGTON, June 2.—Consul General Stowe, of Capetown, South Africa, has informed the state department that American manufacturers and producers have been invited through him to exhibit their wares at the South African industrial exhibition to be held at Grahamstown, Africa, from December 15, 1898, to January 21, 1899. The consul general says that the exhibition will be invaluable to manufacturers of agricultural implements and vehicles, cotton, woolens, sugar, electrical apparatus and all kinds of machinery.

WASHINGTON, June 2.—Ex-Governor Beaver, of Pennsylvania, Colonel J. J McCook and ex-Secretary John W. Foster, had a long talk with the president about permitting Young Men's Christian association workers to establish headquarters with the army camps when they are moved to Cuba, Porto Rico and the Philippines The tents of the organization have been established at state and national camps up to this time and much has been done to furnish entertainment for the soldier boys. The president has taken the matter under advisement.

Why not be well?

If you are suffering with any disease of the Kidneys, Bladder or Urinary Organs, ***Dr. David Kennedy's Favorite Remedy*** will make you well again. It has cured cases that bordered on the miraculous.

It quickly cures men and women of inability to hold urine, and they are not compelled to get up often and make water at night. It removes the scalding sensation in passing it, and, when taken according to directions, it invariably cures pains in the small of the back. ***Favorite Remedy*** not only cures Stone in the Bladder and Bright's Disease, but prevents them from developing.

One case is that of JOHN J. NEILL, of 2011 North Eighth Street, Philadelphia, Pa. In 1889 he began to suffer indescribable miseries from Stone in the Bladder. An eminent physician said a surgical operation was necessary. If unsuccessful it meant death, and Mr. Neill put off the evil day as long as possible. While in this frame of mind he heard of ***Dr. David Kennedy's Favorite Remedy,*** and bought it. Before he had finished the third bottle the gravel was completely dissolved and his sufferings were at an end.

Favorite Remedy is a perfect Blood and Nerve medicine. It restores the liver to a healthy condition, cures the worst cases of Constipation, and all diseases peculiar to females. It cures Scrofula, Salt Rheum, Rheumatism. Your druggist will sell you a regular full-sized bottle for $1.00.

Sample Bottle Free.

Those sufferers who wish to try ***Favorite Remedy*** before buying should send their full postoffice address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Y., and *mention this paper*. A free sample bottle will be sent them prepaid, together with full directions for using. This is a genuine offer, and all our readers can depend upon it.

SOLDIER CANDIDATE WINS!

Col. Wm. A. Stone, of Allegheny, Nominated for Governor.

GOBIN FOR LIEUTENANT-GOVERNOR

Latta, Grow and Davenport All Renominated—A Winning Ticket and a Strong Platform.

IT WAS A PEACEFUL CONVENTION

HARRISBURG, June 2.—It was a peaceful convention and quick, too, for after it began operations there was no adjournment until the end was reached.

So peaceful was it that when the stalwart junior Senator, Bois Penrose, was oratorically bombarding Spain, a sparrow flew in and winged its way to the stage, where it alighted and bobbed its head and daintily hopped about entirely careless of results.

The convention had no elements about it to frighten even the sparrow, and the bird circled around and remained for a time an interested spectator.

This peaceable convention made up a war-like ticket, Colonel Stone, for governor; General Gobin, for lieutenant governor, and General Latta, for secretary of internal affairs, made a strong combination of fighters, and they will carry the Republican standard over the hills and valleys of Pennsylvania.

With Superior Court Judge Porter and Congressman-at-Large Grow and Davenport renominated, the ticket was complete.

The little attempt to create opposition to Latta fell flat, of course.

We are sorry our beloved Congressman W. C. Arnold failed to make the nomination for congressman-at-large for we are sure he would have given additional weight to the ticket. His many friends in the 28th district, who had so confidently hoped for his success, will join with him in another effort at any time when called upon.

The convention was a credit to the Republican party. The best of order prevailed. There were no angry contentions among the delegates and neither Penrose nor the permanent chairman, Frank W. Wheaton, of Wilkesbarre, had a ruling disputed. No bitter personal words were spoken and the speeches were all good.

Tom Marshall, of Allegheny, not "Glorious Old Tom," but his son made the nominating speech for Col. Wm. A. Stone, and sketched his career as a soldier and civilian. It was a splendid record that he gave Stone.

Ex-Senator Allen, of Warren county, did the honors for Charles W. Stone, and did them well, too.

The speech that aroused the most enthusiasm was that of C. F. Chidsey, of Northampton county, who named Gen. Frank Reeder. It was a tribute to Reeder which was richly deserved, Reeder had been attacked in his own home in a most reckless and unjustifiable manner by the Van Valkenberg combination, and the presence here of the Northampton delegates for Reeder and this speech of Chidsey's were the answers of General Reeder's friends.

Before the single ballot upon which Stone was nominated was announced, the Reeder delegates changed their votes and recorded them for Stone. Chidsey's speech was pointed in its denunciations of traitors and was a call to the Republican party to storm the hidden mines and torpedoes of slander just as Dewey had defied the torpedoes in Manila Bay. It took immensely with the crowd, which proved that there was every intention upon the part of the spectators to fight under the Republican flag next November.

The surprise of the convention was the withdrawal of John Wanamaker as a candidate. J. M. Huston, of David Martin's district delegation, made the nominating speech for Wanamaker, but the moment he had concluded A. S. L. Shields was on his feet and presenting a letter from his candidate. It was the final attempt to defeat Colonel Stone. The letter was an attack upon the Republican organization, charging it with using its power to enforce machine methods and then throwing the Wanamaker support to Charles W. Stone No reference was made to the Martin and Magee machines, which have been responsible for so much evil in two cities.

David H. Lane characterized it as the most arrogant display of bossism ever seen in a convention and his characterization started an outburst of cheers. Everybody took the letter to mean that if Colonel Stone was nominated there would be an independent movement, but the convention refused to be scared by the threat. Charles W. Stone's own following now had added to it the Wanamaker delegates and the 69 enrolled by Martin and Magee, but it was not enough. The vote was 198 for William A. Stone and 163 for Charles W. Stone, a majority of 35.

The Connell delegates went to the successful candidate, as did most of the Leisenring men.

For Congressman at Large the old war horse, Grow, got 285, Davenport, 215, and Arnold 148. This was a good showing for Arnold but he needed 182.

General Gobin went in for Lieutenant Govenor with plenty of votes to spare. He received 226 in all.

Charles W Stone, while defeated, comes out of the contest clean-handed and with the respect of all. He made his canvass without a word of attack upon his rival. He has assailed no one and occupies a most favorable position for future advancement and usefulness. He is a Republican and no word of complaint will fall from his lips. His full support will be given, as it always is, to the Republican party.

William A Stone also has conducted his campaign in an open and straightforward manner. His victory is a remarkable one when it is taken into consideration that all the vials of wrath of the Blankenburg-Van Valkenberg combination were poured upon his unffoending head and that he has had the study antagonism of Boss Martin, of Philadelphia, and Boss Magee. He could have won only by having a great mass of the Republican people with him, and the nomination has been made by the people and absolutely free from bossism. Never was a cleaner and clearer title to a nomination given by a state convention, either in Pennsylvania or in any other State in the Union.

Fifth Regiment Complimented.

The Chickamauga correspondent of the Pittsburg Dispatch under date of May 31 says:

"Another set of Pennsylvania troops upheld the military reputation of this state during the review of the Third division, Third corps, today. The Fifth and Ninth Pennsylvania are in the division. The review was made by Inspector General Breckenridge. Nearly 1,000 men were in line.

"Colonel Burchfield was in command of the First brigade, while his regiment was under the charge of Lieutenant Colonel Rufus Elder. To the Fifth was accorded the distinction of leading the division, and it was not misplaced, as they easily carried off the honors of the day. An inspection of equipment followed in the afternoon, with results to the Fifth equally flattering."

They Go on Sight.

One of the rare devices that commend themselves, that "go" on sight is the Neverslip Horseshoe and Calk. The idea and way of accomplishing it are plain as a pipe stem. For example, what ails the old-fashioned horseshoe—what are the objections to it? Why, obviously these. When the calks wear down the shoe can't be sharpened unless it is taken off. On account of the trouble and expense of this the owner often lets his horses go smooth shod until he meets with a slipping accident, or leaves his horses in the stable for fear of it. After a sudden freeze-up in winter the blacksmith shop is crowded and surrounded by horses waiting to be re-shod or sharpened. No use in more than hinting to a horseman what this means. Delay, vexation, loss of time of horses and men, imperfect jobs by the hurried blacksmith and general misery and discomfort. Other objections to the frequent removal and re-setting of shoes as well as to the *neglect* of removing and re-setting them will occur to all horse owners. All this is avoided by the Neverslip Horseshoe and Calk, as shown in the cut. These

Calks can be inserted, removed immediately by the wrench; they are strong and durable; they prevent slipping; they save the shoe; they save money and time; you can do the work yourself. The Neverslip Shoe is as good a shoe as can be and the Calks are adapted to horses of differing weight and work.

Santiago Forts Are Silenced!

last three days, in spite of the prohibition. I found the insurgents strongly posted at Caloocan, eight miles north of Manila, and at Bacoor, the same distance south. To the east I found nothing in the way of insurgent entrenchments.

"The Spaniards hold the whole Pasig river, (which falls into the bay immediately below the town of Manila) to the lagoon. The two sections of the insurgents' forces signal their movements with five baloons.

"To the northward the rising is general and the Spaniards are few. The railway has been cut in several places and the English overseers have been warned off."

LONDON, June 7.—The Hong Kong correspondent of the Standard says: "Advices from Manila say that Admiral Dewey has gathered the steamers now blockading the river to lie off Cavite in readiness to receive foreigners. The Spanish lose arms, ammunition and field pieces almost daily; so persistent are the rebel attacks. The natives are flocking to Aguilando's standard. He is, on the whole, conducting the campaign on humane principles.

CAPE HAYTIEN, Hayti, June 5.—7:40 p. m.—The United States troopship Resolute, formerly the Yorktown, under convoy of the torpedo boat destroyer Mayflower, the converted Ogden Goelet yacht of the same name, arrived at Mole St. Nicholas yesterday and departed shortly after.

Advices from Mole St. Nicholas says that yesterday (Saturday), some distance off Jean Rabel, a seaport on the northwest coast of Hayti, half way between Port de Paid and Mole St. Nicholas, a combat took place between three Spanish and four American ships are said to have withdrawn from the combat.

One of the Spanish warships entered the harbor at Jean Rabel for water. The officers of ships lying at Mole St. Nicholas were extremely reticent.

Jean Rabel is an insignificant seaport and there is no telegraph station there. It is thought possible that the Spanish ships encountered were the vanguard of the Cadiz fleet. The names of the American ships are not ascertainable, but it is believed here that they were probably scouts.

MADRID, June 5.—A dispatch from Havana says that the Spanish gunboat Ardilla and a freighter with 800 head of cattle have arrived there.

General Blanco, according to the dispatch, has published an order prohibiting foreign newspaper correspondents from staying in Cuba under the penalty of being treated as spies.

4 p.m.—A dispatch from Barcelona says a well known merchant there has received a dispatch to the effect that on May 27, a Spanish squadron, consisting of three cruisers and three other protected vessels, was seen off the islands of Madagascar, proceding northward.

Two members of the Lyceum club today made a wager of $50,000 as to the whereabouts of Admiral Cervera's squadron, one betting that it is in Cuban waters and the other that it is enroute for the Philippines. The money is to go to the national subscription for the navy.

11 p.m.—The cabinet council terminate at a late hour this evening, after long consideration of the present position of the war. It was declared that the situation of the American squadron and the insurgents at Manila were unsatisfactory, owing to disease;" that the mission of Aguinaldo had failed and that the native troops were favorable to Spain. Duke Almodovar De Rio, the foreign minister, read a note to be sent to the powers. complaining of America's "infractions of international law."

THAT CADIZ FLEET.

LONDON, June 6.—A dispatch to the Daily Telegraph from Gibralter says:

"The Cadiz reserve squadron is now a week out and bound for Cuba."

A CHIVALROUS FOE.

When Admiral Cervera took the trouble to send out a boat, under a flag of truce. for the purpose of acquainting Admiral Sampson with the fact that Lieutenant Hobson and his gallant men were safe and would be kindly treated, many persons who pride themselves upon their intelligence were much surprised. They had formed such an opinion of the savagery of the Spaniard that it would have been impossible for them to conceive of such a chivalrous act as the Spanish commander's.

The Spaniard is hot blooded and cruel to his enemies. But he is likewise courteous and chivalrous in the highest degree. When engaged in combat with an alien foe he is careful to observe all the rules of civilized warfare and to treat a brave enemy who falls into his hands with the utmost consideration and kindness. It is only to men of his own blood, rebels against constituted authority, that he is as cruel as the grave and as remorseless as death. It is only fair that we should recognize this peculiarity.

He is brave and resolute in battle, a man who can endure pain without flinching and who can inflict it without the quiver of a muscle. Remorseless in his dealings with his foes, he is not without certain old fashioned graces. Let us do him justice in this hour of his humiliation.

Miners Discontented.

PITTSBURG, June 2.—Indications point to a general suspension of coal mining in the third pool. This condition has been brought about by the continuance of an alleged unfair differential against the third pool, the operators of that region claiming that further mining under existing circumstances will result in a loss.

WASHINGTON LETTER.

From Our Regular Correspondent.

WASHINGTON, D. C., June 6, 1889

President McKinley believes, and every member of the Cabinet agrees with him, that the war movements now under way will as soon as they are successfully carried out, as they are certain to be, bring the war to a close by compelling Spain to sue for peace. These movements include the capture of Santiago de Cuba, upon which a combined attack is to be made by the army and navy just as soon as the troops can be got into position—they have probably already been landed—and the capture or destruction of the Spanish fleet in the harbor at that place. Just as soon as Santiago has been captured, the army and navy will make a combined move on Porto Rico, and when that island has been captured it is believed that Spain will gladly evacuate Cuba in order to get peace

The last cable from Cuba, excepting the one to Key West, has been cut, and General Blanco is now not only cut off from Spain, but from nearly all of the Cuban cities, as the insurgents make it impossible for him to main tain overland wires from Havana.

No more daring deed has been performed during this war, or any other war, than the sinking of the U. S. collier Merrimac in order to obstruct the narrow channel at the entrance of Santiago harbor, by a volunteer crew of seven men under Lieut. Hobson. These heroes were all captured by the Spanish, but they will not remain in prison long, and President McKinley will see that they are properly rewarded when they get out.

The Senate has passed the war revenue bill. As passed by the Senate it authorizes the issue of $300,000,000 in bonds and directs the coinage of the silver bullion in the treasury at the rate of $4,000,000 a month and the issuing of silver certificates for that amount. The bill has been sent to a conference committee, and the House conferees will insist upon increasing the bonds to $500,000,000, as provided in the original House bill, and upon striking out the silver coinage clause, and they expect to carry their point in both instances. The final vote upon the bill in the Senate was 48 to 28.

Senator Wolcott made a manly reply to the implied charge of Senator Allen that the Bimetallic Commission uselessly and extravagantly wasted an appropriation of $100,000 during its trip to Europe, in which he said: "I desire to inform the Senator from Neb. that the three commissioners spent more than six months in Europe, traveling where their duties took them. They were accompanied by a secretary, and the entire expense of the work accomplished was only $16,000. And I desire to add that every member of the commission, in accepting the appointment and performing his duties, sacrificed thousands of dollars. It is undignified and unbefiting a Senator of the U. S. to stand in his place on this floor and suggest that the commission spent money it was not justified in spending. I am getting tired of hearing that sort of suggestion from the Senator from Nebraska. It is not the first, the second, nor the third time he has thrown them out. Through him they are now being circulated in the west by means of 'patent insides', which constitute the bone and sinew and most of the brains of the populist part." Mr. Wolcott concluded by expressing his belief in the ultimate success of international bimetallism.

No one in Washington is worrying over the news given out by the Spanish government that a large Spanish fleet is on the way to Manila. Even if it were true, wherein it would be different from any other news given out by the Spanish government, it would cause no worry in Washington. Admiral Dewey is amply able to take care of any fleet that Spain can send against him, even without any reinforcements, and it is certain that the cruiser Charleston and the first instalment of troops—the second instalment will start from San Francisco this week—will be with Dewey before any Spanish fleet can possibly get to Manila.

Hawaiian annexation may not be accomplished this week, but the resolution providing therefor will almost certainly be taken up and adopted by the House this week. Owing to the latitude given the minority by the rules of the Senate, no one is predicting when that body will act. But the adoption of the resolution by the House will open the way for annexation in another way, if the minority of the Senate succeed in preventing a vote being reached upon the resolution. The President has ample authority to seize Hawaii as a war measure, and as its possession is considered absolutely necessary as a stopping place for our ships bound to and from the Philippine islands, there is little doubt that he will do so if the Senate fails to act before the adjournment of Congress.

The volunteers will not be deprived of their votes at the Congressional election, if Representative Lacey's bill, which has been favorably reported to the House from the election's committee, becomes a law, and it probably will. The bill gives the volunteer soldier the right to cast his vote for Congressman, wherever he may be stationed. The war will probably be over before the Congressional election, but some of the volunteers are likely to be continued in service until after that time, especially those who have gone to the Philippines and those who will go to Porto Rico.

DOUBLE DEALING.

Is the Cause of Many Heart Burnings—A Bellefonte Case That of the Opposite.

Double dealing like so many other expressions of the Anglo-Saxon language has different meanings. The text or heading does not refer to the deceitful, hypocritical specimens of manhood who curry favor for their own ends and keep the community in a ferment by retailing scraps of confidence. This time 'tis the double dealing of the little conqueror. Doan's Kidney Pills—to be more correct—the double healing. One member of a family tests them and like disease the infection spreads—another tries them the result is the same, a cure. Read the statement that follows made by

Mr. Curtis Johnson, of 583 Bishop St., freight and truckman, who says: "I had backache and lameness across my loins for a year or more. At times the lameness was so acute I could lift nothing, and if I stooped it was impossible for me to straighten up. When driving there was a steady aching over my kidneys the whole time and I had a dull, tired feeling which took away all my ambition. I procured Doan's Kidney Pills from F. Potts Green's drug store and they soon freed me from the whole combination of troubles and they did it quickly and thoroughly. My wife was also suffering from a tiresome, grinding backache and she used Doan's Kidney Pills and they invigorated her generally. She now speaks of them as highly as I do. We never came across any remedy which surpassed Doan's Kidney Pills."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo. N. Y. Sole agents for the U. S. Remember the name Doan's and take no substitute.

Pennsylvanians Need Shoes.

SAN FRANCISCO, June 2.—General Merritts is arranging the details of the second expedition, to the Philippines, but has not yet made public the assignment of troops for the expedition, and will not make the order public until the date of the sailing of the fleet has been determined.

It is stated in some quarters that the expedition cannot possibly sail for two weeks yet. Just what is causing the delay is a mystery.

The Pennsylvania volunteers are in a serious plight. They need shoes so badly that the regiment is seriously crippled for lack of them. Many of the men cannot drill on account of the dilapidated condition of their footgear.

A $50,000 Fire in the Quaker City.

PHILADELPHIA, June 5.—The building and stock of George B Evans, wholesale and retail druggist and dealer in fancy articles, at 1106 Chestnut street, was damaged by fire to-night to an extent of $50,000. The fire originated on the fifth floor of the laboratory among some chemicals and was caused by spontaneous combustion While attempting to extinguish the flames, H Baldwin, the watchman was badly burned. The stock of E A Wright, art and bank note engraver, adjoining, was slightly damaged. All damage is covered by insurance.

Terrible Pains

In the Stomach—Dreadful Headaches—Face and Neck Covered With Boils—Cured by Hood's Sarsaparilla—Skin is Now Clear.

"I was covered with boils all over my face and neck. I had dreadful headaches and pains in my stomach. I took medicines, but was not much benefited, and I procured six bottles of Hood's Sarsaparilla. After taking the first bottle I could see an improvement. When I had taken a few more bottles the boils had all gone, my skin was clear, my appetite returned, and my health was entirely restored. I am thankful I ever found such a blood purifier as Hood's Sarsaparilla. I paid out a good deal of money for useless medicines before taking Hood's Sarsaparilla." W. F. BECKWITH, Hurlock, Maryland.

If you decide to try Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Killed Five Birds at One Shot.

Nippenose News: Reuben Eck made a fine rifle shot one day last week. He shot into a crow's nest high up in a chestnut tree and the bullet cut off the necks of the mother and four young crows. Crows are giving farmers much annoyance this year, working on newly planted corn fields. Scare crows have been put up in many fields, but the cunning birds are not frightened by them.

The State Crops.

The weekly crop bulletin issued by the government department of agriculture shows that wet weather has interfered with crops. It states that another week of rain ranging from light to heavy together with the previous saturated condition of the soil, further delayed the completion of the seeding of corn and potatoes. Early planted corn is up and doing well, but owing to the cold wet soil considerable of the later planted failed to germinated and there is yet a large acreage to seed. Many more potatoes will be put in as soon as the ground can be worked. Nearly all farm work is much delayed and in some sections there is still much plowing to be done for corn. Ground is being prepared for buckwheat as rapidly as conditions will permit. Grain and grass made rapid growth and under favorable conditions a large yield may be expected, but the rank growth of wheat and rye has caused it to be weak in straw and lodging is feared. Most reports are favorable for a large yield of fruit. Trucker's crops are doing well. Meadows and pastures are in good condition. Slow progress is being made in tobacco culture.

Pension for an Aged Woman.

WASHINGTON, June 3.—The house held an evening session which was devoted to bills granting pensions and correcting military records. Among those acted upon favorably was one pensioning Nancy Barger, of Pennsylvania, the widow, 105 years of age, of a soldier of 1812. More than sixty bills were considered. It being considered as probably the pension session of the present session of congress, there was a great struggle of members to have their respective measures taken up.

NOTICE TO HARRITY.

James M. Guffey Succeeds Him on National Committee

THE EX-CHAIRMAN GIVES A TALK

Harrity Regrets that the Democratic Committee Has Taken Such Action as would Read Sound Money Men Out of Party.

GUFFEY IS THE CHOICE OF BRYAN

PHILADELPHIA, June 7.—William F. Harrity today received official notice from Chairman James K. Jones that, a majority of the Democratic national committee having voted in favor of recognizing James M. Guffey as the Pennsylvania member of the committee, Mr. Guffey's name will be placed upon the roll of the committee. Referring to the matter, Mr. Harrity said.

"The action of the committee is of little moment to me personally. Nearly two years ago I gave public notice of my withdrawal from active participation in politics. Since then I have not attended any meetings whatever of any political convention or committee. I regret, however that the Democratic national committee has takensuch action as would seem to indicate that only those who believe in the free and independent coinage of silver can remain in the party organization. I was personally opposed to that doctrine and so notified Chairman Jones when the campaign of 1896 was pending. I have not changed my views with respect to the currency question and I am still opposed to the free coinage of silver. Furthermore, I believe that the time is not far distant when it will become apparent to the masses of the Democratic party that they are being misled by those who now lead them, and that the present blind leadership of the party will be repudiated by the Democratic people of both the state and nation.

"I know it is true that Mr. Bryan has stated that he counts upon the support of Pennsylvania in the Democratic national convention of 1900, but this fact does not disturb my belief that both Mr. Bryan and free silver coinage will receive their quietus in that year, if they shall not have been effectually disposed of even before that time."

Will Increase the Output.

The anthracite coal and carrying companies have decided to increase the output of coal during June to 2,500,000 tons, and consequently the collieries will be operated two and a half or three days a week. With the opening of navigation on the canals and great lakes the producing companies will begin to restock their depleted supplies of coal at the various shipping and distributing ports.

St. Gall Swisses.

In the town of St. Gall, Switzerland, nine tenths of the Swisses handled by the world's trade are manufactured.

We received a short time ago a large shipment of these Swisses, but reserved them for the opening of our new store.

They are of the snowiest texture with beautiful designs of scrolls and ribbons and those pretty little dots that are so popular.

For the party dress, either of itself or over shades of taffeta, it is very rich. For the graduating dress it is simplicity and neatness combined.

The prices we have put on these goods are a third and more less than the prices asked by other houses.

The Successful Remedy for Nasal Catarrh

must be non-irritating, easy of application, and one that will by its own action reach the inflamed and diseased surfaces.

ELY'S CREAM BALM combines the important requisites of quick action and specific curative powers with perfect safety to the patient. This agreeable remedy has mastered catarrh as nothing else has, and both physicians and patients freely concede this fact. All druggists cheerfully acknowledge that in it the acme of Pharmaceutical skill has been reached. The most distressing symptoms quickly yield to it. In acute cases the Balm imparts almost instant relief.

By Absorption.

Catarrh sufferers should remember that Ely's Cream Balm is the only catarrh remedy which is quickly and thoroughly absorbed by the diseased membrane. It does not dry up the secretions, but changes them to a limpid and odorless condition, and finally to a natural and healthy character.

The Balm can be found at any drug store, or by sending 50 cents to Ely Brothers, 56 Warren St., New York, it will be mailed.

Full directions with each package.

Cream Balm opens and cleanses the nasal passages, allays inflammation, there by stopping pain in the head, heals and protects the membrane and restores the senses of taste and smell. The Balm is applied directly into the nostrils.

After the ceremony the bride and groom, amid showers of rice, departed for their future home in Pittsburg.

Children's Day services will be held in the United Evangelical church on Sunday evening, June 19.

Appointed Assistant General.

Thomas B. Crawford, son of William Crawford, of Jersey Shore, who for many years has been a resident of Colorado, was recently appointed assistant adjutant general of the National Guard of that state. The Colorado papers publish flattering notice of the service rendered the National Guard, of which organization he has been a member for several years. Mr. Crawford is a brother-in-law of "Faraway Moses."

DRIVE THEM FROM CANADA

Proceedings Begun Against Lieut. Carranza and Senor Dubosc.

He Has Acted in the Case and Without Waiting for the Slow Processes of the Mails Cabled the Affair to London.

WASHINGTON, June 5.—Steps have been taken by which it is expected that Lieutenant Carranza, who has conducted the Spanish spy system from Montreal, with his associate, Senor Dubosc, former secretary of the Spanish legation here, will be expelled from Canada within the next few days unless they adopt their own means to leave before an international question is raised as to their presence there. The Carranza letter, detailing his spy system, was communicated to the British ambassador, Sir Julian Pauncefote together with all other information bearing on the operations of the Spanish officials in Canada. The ambassador was quick to act in the matter and, without waiting the slow processes of the mail; he cabled the entire matter to the foreign office.

No doubt is entertained as to the speedy action of the authorities at London, now that a specific case has been made out against the Spanish officials in Canada. They would have taken the initiative ere this had there been anything more than suspicion as to the operations of Carranza and Dubosc. But the Carranza letter was proof positive and the British officials moved quickly and on their own volition towards securing adequate redress. The state department has not cabled Ambassador Hay, not deeming it necessary to do more than lay the facts before the British ambassador here.

It is expected that Lord Salisbury will call the attention of the Spanish government to the undesirability of having Messrs. Carranza and Dubosc remain in Canada any longer, as their operations are so obviously hostile to the United States. This, however, may become unnecessary if the Spanish officials withdraw from Canada at once, as there appears to be no disposition to prosecute them or to give them an enforced expulsion so long as they are willing to close their operations and depart. The British statutes, as well as those of Canada, have specified provisions against the use of British or Canadian territory, by foreigners temporairly seeking asylum there, as the base of hostile operations against countries with which Great Britian and her colonies are at peace.

About a week ago an effort was made by the Spanish officials to enlist the sympathy of the British embassy here with an alleged British subject imprisoned at Tampa, who, it is now believed, is the spy alluded to in Lieutenant Carranza's letter. A Canadian lawyer arrived here last Sunday, and made a personal appeal to Sir Julian Pauncefote to intervene in behalf of the man imprisoned at Tampa. There were suspicious circumstances connected with the man's case and, before acting, the ambassador asked for a specific recital of all the facts.

These were not forthcoming and the case was not pushed. When the Carranza letter appeared, stating that one of his spies had been caught at Tampa, it became apparent for the first time that the efforts towards intervention were designed to secure the release of this spy.

Aside from the official action of the British government, it is quite likely that the Canadian officials will take some action against Carranza and Dubosc under th Canadian statute. When Sir Louis Davies, minister of marine of the Canadian cabinet, was here recently he spoke of the determination of the Canadian authorities to maintain the strictest neutrality, and to see that the Carranza party did not use Canada as a base for any hostile operations against the United States. He referred to the difficulty in making out a specific case against them, saying that it was not enough to present mere suspicion. He said, however, that if such a case was secured the Canadian authorities would act promptly in putting an end to the abuse of hospitality shown by the Spanish officials

The Cerranza letter furnished just such a case as Sir Louis Davies referred to, and leaves no doubt that the Dominion government, as well as the authorities in London, will see that the Carranza-Dubosc party no longer abuse their residence in Canada by making it the headquarters for a spy system and a base of information for General Blanco, Admiral Cervera and the authorities at Madrid.

REPUBLICANS PLEASED.

The Republicans of the state with few exceptions, are well pleased with the nominations made by the convention at Harrisburg Thursday. There are elements of strength in the ticket that will increase as the weeks pass and the people realize the wisdom of the convention in nominating Colonel Stone and those who will share victory with him in November next, In these military times it is significant that the ticket is strictly speaking, a soldiers' ticket, headed by one who possesses a brilliant record for service in the field. Colonel Stone was one of the first to answer President Lincoln's call for volunteers in 1861 to man the defences of Washington against the expected attack of Breckinridge and Early, he quit the hospital and then saw his first real service. He was in the engagement at Yellow House, on Six Mile Run, August 18; the seige of Petersburg from August 19 to September 22; later in the fall of that year going with his command to do duty at Camp Cadwalader, Philadelphia. He was promoted through the grades of petty officers up to that of second lieutenant which he received on March 10, 1865. He was mustered out of service with his company on August 3, 1865. After the war was over Governor Hartranft commissioned him assistant adjutant general of the Thirteenth Division, National Guard with the rank of Lieutenant Colonel.

General Gobin, the nominee for Lieutenant Governor, is one of the foremost military men in the state, and at present the Commander-in-Chief of the Grand Army of the Republic, and, until recently, commander of the Third Brigade, National Guard of Pennsylvania. When the war of the Rebellion broke out he entered the service as a private in the ranks, serving with distinction to the government, and honor to himself, rising on his own merit from the ranks to the post of Colonel commanding the Fifty-seventh regiment, Pennsylvania Volunteers. When the war closed he was promoted to Brigadier General and assigned to Provost Marshal duty at Charleston, South Carolina. He was one of the original organizers of the Grand Army.

General Latta is also a soldier with a record.

William W. Porter, the nominee for Superior Court Judge, is a young man and a Philadelphia lawyer of distinguished attainments. He was appointed to the bench as the successor of Judge Williard, resigned.

The veteran Galusha A. Grow is known to nearly everybody in the state. His name is a household word. He was the great war speaker of the House of Representatives. He was elected to Congress in 1851, and served six consecutive terms. When he entered Congress he was the youngest member and is now one of the oldest. He was elected Congressman-at-Large in February, 1894, by a pluralitv of 188,294, and was reelected to the present Congress by a plurality of 246,162. which at that time time was the greatest vote ever given a candidate in this state.

Samuel A. Davenport is a distinguished lawyer of Erie county, and was elected to Congress in 1896 by a plurality almost as large as that given Grow.

Congressman J. D. Hicks on Thursday entered suit in Harrisburg against Rev. S. C. Swallow, publisher of the Harrisburg Commonwealth, for $50,000 damages. The civil action is based on an alleged libellous publication in the Commonwealth during January last in which Mr. Hicks was charged with improper handling of the Bailey estate and the Pennsylvania Building and Loan Association.

Regarding the suit Mr. Hicks is reported to have said:

"I have been abused by the newspapers until I can't stand it any longer. I do not care for myself, but my family has been humiliated and I will not permit that to go unpunished. I am out for blood now."

The law firm of Snodgrass and Detwiler has been retained in Mr. Hicks' interest.

Samantha at Saratoga, in a New Dress.

One of the funniest of all the funny books is certainly "Samantha at Saratoga." Will Carleton pronounces it "delicious humor" and Bishop Newman says it is "bitterest satire, coated with the sweetest of exhilarating fun." Formerly published by subscription at the price of $2.50, and sold, it is said, by the hundred thousand, it has recently been issued in an exquisite little cloth-bound volume in the "Cambridge Classics" series by the celebrated cheap-book publishers, Hurst & Co., of New York, as a means of widely advertising that series, and it is sold at the fabulously low price of 25 cents. It would seem strange if they should not sell a million of them. They are sold by booksellers, or the publishers direct.

That Settles It.

With the bloom and beauty of the season, its balmy airs and delightful temperature, we feel like living with new life, and are therefore often very careless in taking care of ourselves. It is this forgetfulness that layes us liable to attacks of rheumatism, the more liable because we think there is little danger of its coming on, but rheumatism is an easy thing to take and sometimes a hard thing to get rid of unless we take the advise of others and learn that the best way possible is to use St. Jacobs Oil. It has been used so long as a sure cure that this advice is given in good faith from the testimony of thousands.

Sentenced to Four Years.

WOOSTER, Ohio, June 6.—Charles Cutton, of Orrville, the express agent, who embezzeled $10,000 from the Adams Express Company in March was sentenced to-day to four years in the penitentary. Cutton was arrested in Mexico City a week ago and was lodged in jail here yesterday. He admitted his guilt and turned over $8,200 to the company.

NEW YORK FASHIONS.

Graduating Dresses, Ruffled Organdies. Wedding Costumes, Tucked Silk Waists, Accessories.

The most essential point regarding dresses is, that they should appear soft as possible; therefore mull, very fine muslin or soft net are leading materials, and organdy underskirts have to a considerable extent displaced silk linings, as the latter are always somewhat hard. Great liberty exists as to ruffles and lace insertion either one of which or both, must trim the fashionable skirt. A deep flounce around the skirt may be plain or have several rows of insertion, or double ruffles may be placed at regular intervals all the way up, and "baby ribbon" stitched on the edge, gives a very pretty finish.

SLEEVES AND CORSAGE

should be in harmony, and as the guimpe effect is in great favor, a full waist and shirred guimpe, with satin ribbon sash, combines every requisite of style. Tucked sleeves are easily laundered, therefore preferable to ruffles. These rules hold good in regard to plain organdies, which have the preference this season as a confused appearance is the result of ruffling a figured material. A combination of two plain-colored organdies is quite successful, as for example a green foundation may have pale heliotrope flounces edged by white lace.

FOR WEDDING DRESSES.

plain satin has a rival in soft white Brussels net, and also in white chiffon, which to say the least, are more suitable for this season of the year. Worn over many organdy underskirts, these fabrics look exquisitely soft and beautiful, trimmed with fine lace, chiffon ruchings, or Renaissance lace. Many wedding costumes are made with guimpes, (which are practically the same as round yokes) and long sleeves, and by discarding these, the wedding dress appears new at subsequent receptions.

IT MUST NOT BE UNDERSTOOD

however that plain satin is passing out of style, as it is often preferred, and is more stately and and conspicuous; offering unlimited opportunity for display in respect to point or duchesse lace, which however is not obligatory, as some satin dresses are very plainly made. Trains are both round or square, and the blouse effect is almost universal with high neck and long sleeves.

Bridal sets of three pieces are examples of fine handwork and lace, varying in price from $12 to several hundred dollars. Some particularly pretty sets, show the reverse of the night dress covered with exquisite hand embroidery, edged with real Valenciennes lace, and to meet the demands of refined taste, they are delicately perfumed by Murray & Lanman's Florida water, which in soft fragrance remains unrivalled, while in these days of out-door sports, no emollient is so efficacious for a sun-burned complexion, as this old time favorite.

INDEPENDENT WAISTS.

are more tucked than ever, and one of white silk, is of quarterinch tucks through out, all handwork, and a pointed yoke made in sections, with insertion between the points, is put in by hand-silk, with contrasting borders, already tucked is very new and quite expensive, and where one cannot afford to use it for the whole waist, plain silk can be substituted at the back and for the sleeves, having the tucked material only at the front. The border is placed around a white chiffon or lace guimpe and down the front as a reverse, and also on the outside of the sleeve, there however, it is put on flat.

PRETTY ACCESSORIES

come in spangled black net blouse fronts which can be used on any full black waist and yokes in very similar style, lined with white satin are very dressy and effective. Red, white and blue combinations on waists are just now a special fancy, and on a red waist, the reverse may be white and blue, or on a blue waist, a small red vest may have blue and white reverse. White satin is very popular for fronts, either plain or barred with narrow black velvet, and nothing is more stylish than silk tucked in squares, and although belonging to last season, it has lost no prestige.

Delicate Children

They do not complain of anything in particular. They eat enough, but keep thin and pale. They appear fairly well, but have no strength. You cannot say they are really sick, and so you call them delicate.

What can be done for them? Our answer is the same that the best physicians have been giving for a quarter of a century. Give them

Scott's Emulsion

of *Cod-Liver Oil with Hypophosphites*. It has most remarkable nourishing power. It gives color to the blood. It brings strength to the muscles. It adds power to the nerves. It means robust health and vigor. Even delicate infants rapidly gain in flesh if given a small amount three or four times each day.

Duke of York's Cruise.

LONDON, June 2.—The Duke of York, who has just been appointed captain of the cruiser Crescent, will probably visit the United States this year. The Crescent will first take part in the July manuevers off the south coast of England, and then will start on a long cruise nearly round the world, touching at most of the English colonies.

The exact route is not yet laid out, but the Crescent will probably sail westward first to the West Indies or Canada. It is considered likely that the Duke will take advantage while along the American coast, to visit New York, and perhaps other ports. The Duke, who now gets £220 pounds a year as half-pay, will get £830 pounds while commanding the Crescent.

Sir Charles Cust, one of the Duke's equerries, will be first lieutenant. The other officers of the Crescent are: Commander. Campbell; lieutenants, Greatorex, Philpotts, Rucke-Kiene and Cecil Baikes. All are picked for ability and social position. Most of them are from the royal yacht Osborne

If the war conditions in August or September are such that the Duke can visit the United States, it will be considered of great effect in bringing about closer friendly relations between the two countries which all England now favors.

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE GRAND VAUDEVILLE.

Bellefonte's Society People in Continuous Performance

THEY SCORED A BIG SUCCESS

A Large and Delighted Audience Composed of Bellefonte's Best People Fill Garmans Pretty Play House Afternoon and Evening.

IT WILL CONTINUE ONE WEEK

One of the most stupendous amateur entertainments ever undertaken in Bellefonte opened at Garman's opera house Friday afternoon at 3 o'clock, and will continue for one week.

The style of the entertainment is something new for this place and the novelty of it has created quite a sensation. It is a continuous performance Vaudeville show, the same kind that has made such a big hit in the cities, and you can go in the afternoon at three and stay until ten at night and see what is beyond any doubt the finest amateur entertainment ever given in Bellefonte. As manager George Meek said last night, you can go and take a lunch with you and make a regular basket picnic out of it.

The crowd Friday afternoon was not as large as expected but in the evening the pretty opera house was well filled with an audience composed of the best people of our city. The stage is tastefully decorated with our national colors and presents a fine appearance.

The big array of amateur talent which you can listen to, is the greatest ever gathered together here and counts among the performers the following solo artists: Mrs. Arthur Brown, Mrs. Mose Burnett, Misses Eleanor Twitmire, Elsie Weaver, Marie Meek; Messrs. Philip D. Waddle, John Blanchard, Milton Derr, Hard P. Harris, Michael Hazel and Masters Lee Walker and Tommy Fleming.

The comedy parts were well taken by James Harris, Geo. R. Meek, Scott Harris, John McSuley, Ed Harris, Wm Rine, Eddie DuBois, Georgie Mayhew and John Blanchard.

The purely musical numbers were supplied by Messrs. Katz, Culveyhouse, Brown, Smith and the splendid Vaudeville orchestra of ten pieces. And right here we want to highly praise this magnificent musical organization. It is without doubt the finest ever started in our city. The following members compose it: 1st violins, Frank Dietrick, Lemuel Beerly; 2nd violins, John Noll, Jos. Beck; clarinet, Fred Smith; cornet, Samuel Bryan; flute, Henry Brown; trombone, Will Royer; double base, C. D. Smith; piano, Winifred Meek; drums, Vesta Culveyhouse.

Some of the big specialty hits were Will Derstine, "Bill" Rine, Eddie DuBois and Georgie Mayhew in dancing features; Ed Harris and his friends in clever coon farce; John M. Blanchard in clever Irish eccentricities and songs Emanuel Markle in feats of strength.

One of the hits of the afternoon was the laughable society farce presented by the well known members of the old Bellefonte Dramatic society entitled "Popping the Question." Introducing Mrs. Annie Orvis Keller, Miss Emily Valentine, Miss Pattie Lane, Miss Rebekah Blanchard, Mr. John M. Blanchard and A. Scott Harris.

Probably the biggest hit of the whole performance and well worth twice the price of admission, was the grand spectacular military operatic march from Sousa's opera "The Bride Elect," introducing twenty of Bellefonte's most beautiful young ladies in a series of new and amazing figures arranged especially for this show. The march was led by the Misses Rebekah Blanchard and Ellen Valentine. The solo parts were taken by Miss Eleanor Twitmire and Miss Elsie Weaver. In the chorus were the following young ladies.

Rebekah Blanchard, Annie Curqin, Sarah Malin, Helen Malin, May Crider, Betty Breeze, Lulu Smith, Jane Shugert, Bertha Laurie, Ellen Valentine, Bernice Moore, Mary Hamilton, Mary Ceader, Madge Gilmore, Patty Lane, Grace Armor, Laura Rumberger, Adeline Harris.

Probably the most laborious and difficult undertaking of the entertainment was the wonderful projectoscope which exhibited at intervals over one hundred pictures of street scenes in and about Bellefonte true to life. To present this feature alone the management has had photographers at work for a month past preparing the pictures which two expert electricians with their $400. lantern reproduce on the screens.

In addition to this always popular and effective living pictures were shown. They were faithful reproductions of the latest works of art of Gibson and popular cartoonists.

We would like to go into detail in regard to another feature the minstrel performance but space will not permit suffice it is to say that they scored another big hit last night. A feature which took was the centre man (Bob Hunter) represented as Uncle Sam.

Taken all in all we do not think we are wrong in our statement that it is the finest amateur entertainment ever given by our local talent.

It deserves a big patronage not alone because it is for a worthy cause the Y. M. C. A., but also on its own merits as a fine performance. We cannot close this article without complimenting George R. Meek and those who assisted him for their tireless efforts to make this affair the grand success it has proven to be. They certainly deserve the thanks of the fun loving public, for the good show they are giving them, and also the friends of the Young Men's Christian Association for the grand effort they are making to lift the burden of debt from their shoulders.

Damaged the Batteries and No One Hurt.

PORT ANTONIO' June 1. (Delayed in transmission). —The Associated Press steamer Dandy, which arrived here today reports that Commodore Schley yesterday, afternoon attacked the batteries at Santiago de Cuba and the fleet of Admiral Carvera lying in the harbor. The Spanish flagship Cristobal Colon was struck twice by shells from the Massachusetts and the batteries were badly damaged by the fire from the cruiser New Orleans. Three hundred shots were fired by the Spaniards and one-fourth of that number by the Americans. No American vessel was hit and no one on the ships was injured. The Spanish loss was not heavy.

Your Liver

needs coaxing, not crowding. Dr. Ayer's Pills stand without a rival as a reliable medicine for liver complaint. They cure constipation, and they cure its consequences, piles, biliousness, indigestion, sick headache, nausea, coated tongue, foul breath, bad taste, palpitation, nervousness, irritability, and many other maladies that have their root in constipation. They are a specific for all diseases of the stomach and bowels, and keep the body in a condition of sound health.

"I have used Ayer's Pills for the past thirty years and consider them an invaluable family medicine. I know of no better remedy for liver troubles, and have always found them a prompt cure for dyspepsia."—JAMES QUINN, 90 Middle Street, Hartford, Conn.

SECOND BATTLE OFF SANTIAGO DE CUBA!

The Collier Merrimac Said to Have Been Sunk in the Engagement.

SCHLEY FORCED THE HARBOR.

It is Reported by Spanish Authorities That the Cadiz Squadron Has Sailed to Join Cervera.

ALL THE LATEST WAR NEWS BY WIRE.

MADRID, June 4.—The Paris, a prominent Republican organ, says it is rumored that the United States fleet has made a second attack upon Santiago de Cuba, and that the Americans forced an entrance into the harbor. In Spanish circles here the report is not believed to be true.

The Madrid newspapers maintain that Admiral Cervera's fleet is sailing in the direction of the Philippine Islands.

PORT AU PRINCE, Hayti, June 4.—9:05 a. m.—It is reported here, direct from Santiago de Cuba, that an American warship, which forced the entrance to Santiago Bay yesterday, was sunk by a torpedo.

CAPE HAYTIEN, June 4.—10 a. m. Advices from Santiago says that the auxiliary cruiser sunk there is said to be the Merrimac.

There is a steamer Merrimac in our fleet, but it is not an auxiliary cruiser, but a collier armed with four guns, having a crew of sixty-five and a displacement of 1398 tons.

CAPE HAYTIEN, Hayti, June 3.—3:15 p. m.—The American fleet, according to advices received by cable from Santiago de Cuba, the cable being under Spanish control, opened fire again at 3 o'clock this morning (Friday) on the fortifications and warships.

The canonade was well sustained until 4 o'clock a. m.

A United States auxiliary cruiser, "well armed," attempted to force the passage into the harbor.

The Spanish allowed the cruiser to cross the first line of torpedoes, but before she arrived at the second line they discharged at her a torpedo, which broke a great hole in her side and caused her to sink almost instantly, bow first.

The name of the vessel is not known, nor is the number of victims reported.

One officer, one engineer and six sailors were made prisoners by the Spaniards.

GIBRALTAR, June 4.—9:05 a. m.—It is announced here that the Spanish Cadiz squadron has sailed, but the date of its sailing was not mentioned nor was the destination of the warships given.

The Cadiz fleet of Spain consists of the battleship Pelavo, the armored cruisers Carlos V and Alfonso XIII, the auxiliary cruisers Rapido and Patriota, the cruisers Cindad de Cadiz, Leon XIII, Buenos Ayres and Antodio, several auxiliary cruisers of a smaller type than the Rapido and the Patriota, the torpedo destroyers Audaz, Prosperina and Destructor, and possibly the armored cruiser Cardenal de Cisneros. So many misleading reports regarding the composition and strength of the Cadiz fleet have been circulated that it is almost impossible to refer to its composition in more than general terms. However, there is only one battleship in the fleet and she is not very formidable.

KINGSTON, Jamaica, June 3.—Latest advices from Port Antonio says that Commodore Schley has been notified by the Navy Department that the battleship Oregon, the armored cruiser New York, another cruiser and two colliers have been sent to Santiago De Cuba.

PORT ANTONIO, Jamaica, June 3.—9 a. m.—It is likely that the latter part of the week will see more serious work off Santiago. The dynamite cruiser Vesuvius has been ordered there, and an attempt will be made by her to explode the triple row of mines extending across the harbor mouth. With these out of the way, Commodore Schley will sail into the harbor for a death grapple with the fleets and batteries.

CAPE HAYTIEN, Hayti, June 3.—9 a. m.—No direct news has been received here today from Santiago De Cuba except a reiteration of the reports of the dreadful destitution of the inhabitants there.

It is said that now even the officials are unable to procure a normal supply of food.

PORT AU PRINCE, June 3.—9:20 a. m.—No fresh news has been received from Santiago De Cuba this morning.

The report of an attack upon the city by the insurgents is not confirmed and appears to be without foundation.

CAPE HAYTIEN, Hayti, June 2.—According to information received here from hitherto accurate sources, a decisive engagement between the United States and Spanish forces is expected to take place today at Santiago De Cuba.

LONDON, June 3.—10:45 a. m.—The Spanish Ambassador in London, Count Rascon, in an interview today, is quoted as supporting the assertion made in Madrid that the Cristobal Colon was the only important Spanish vessel in the harbor of Santiago De Cuba, during the engagement.

One paper predicts that Admiral Cervera's movements are likely to furnish startling news in the near future.

MADRID, June 1.—6 p. m.—The following undated official dispatch from Havana has been received here:

"The American squadron, commanded by Commodore Schley, composed of large ironclads and cruisers, attacked the fortifications at the entrance of Santiago De Cuba. Our ironclad Cristobal Colon, closing the mouth of the port and supported by the fire of the forts, repulsed the attack, causing damage to the enemy.

[Signed] "MANTEROLA."

Admiral Monterola is the officer in command of the regular Spanish fleet in Cuban waters.

HAVANA, June 1.—7 p. m.—Admiral Cervera, it is reported here, was not at Santiago De Cuba yesterday during the bombardment by the American squadron. Had he been there the Spanish warships would have entered the combat against the Americans, confident of a victorious outcome.

The Spanish troops have orders to make an energetic, a slight or no resistance, according to circumstances, with a view of facilitating the landing of American forces so that the latter may go into the interior of the country, where the Spanish are convinced that they will be able to defeat them. The Spanish army and navy are anxious to measure arms with the Americans and desirous that propitous occasion may soon present itself, trusting for the result to the courage of the Spanish soldiers and sailors, to their better organization and to the greater skill of their commanding officers.

CAPE HAYTIEN, June 1.—10:15 p. m.—The Spanish government, according to advices received here from Havana, intends to cut the cables which connect that city with Key West, if the other Cuban cables are cut by the Americans. The Havana papers, the same advices say, published a dispatch from Madrid declaring that the Americans intend to attack Santiago by sea while the insurgents are making an attack by land, and also to land reinforcements at Guantonamo, east of Santiago.

Highwaymen on Wheels.

A wheelman of West 46th Street, New York, was not long since attacked, robbed and left senseless by two highwaymen mounted on bicycles in Central Park. Repeated accounts of robberies by men mounted upon the swift revolving wheel have appeared in the papers in various parts of the country. In each instance, so far as learned, they have evaded the police. Those depredators of the health, diseases of the kidneys and bladder, will likewise in all likelihood escape arrest, and pursue their atrocious career unchecked, unless they are arrested in the outset by the potent intervention of Hostetter's Stomach Bitters, the finest diuretic, as well as tonic, known to modern times. The genial preventive named is the best known medicinal safeguard not only against renal, but also rheumatic and malarial disorders. It is at the start that disease is the more easily and completely overcome. The use of the Bitters is followed by the happiest results in cases of dyspepsia, constipation, liver complaint and nervousness.

Deaths at Chickamauga.

Chickamauga National Park, June 4.—Three deaths were reported from the camp hospital, Corporal Clarence R. Stewart, Eight Massachusetts, of Somerville, died of pneumonia; John A. Riley, private, First District of Columbia, pneumonia; W. C. Spofford, of the First Vermont, of Burlington, of pneumonia. The remains of each were sent home for interment.

Why Spain Makes Haste Slowly.

The Spanish government is making haste slowly, even from the Spanish point of view, about sending the reserve squadron which has long been fitting out at Cadiz into active service. Probably the feeling is deep and potent at Madrid that the more warships Spain sends where the Americans can get at them the fewer vessels will carry the Spanish flag at the end of the war.—From the Cleveland Leader.

OUR BOROUGH FATHERS

Held Their Regular Meeting Monday Evening

GERBERICH WAS PRESIDENT PROTEM

Thursday Being Agitated as a Market Day—Spring Creek from High Street Bridge to Spring to be Cleaned.

BILLS AMOUNTING TO $814.70 PAID

The Bellefonte town council met Monday evening at 7:30 in their handsome new room in the Public building. Those members present, were Gerberich, Valentine, Lowery-Wetzel, Tripple, Garrity and Sheffer In the absence of President Keller, it was moved by Mr. Tripple that Mr. Gerberich act as president pro tem. It was so ordered. The minutes of the previous meeting were read and approved.

Dr. E, S. Dorworth requested that a walk be laid from Court house up to jail on south side of park. Also asked that several crossings be laid across High street.

Mrs. Jennie Dolan requested that council exonerate her from water taxes for 97 and 98. The house had not been occupied for one year and would not be this year.

Thomas McCafferty complained of the condition of the side walks on East Logan street from Allegheny to High school building. Other complaints were also filed in regard to the condition of this street.

Mrs. Jennie Mitchell requested crossing over gutter near her residence on Logan street.

The water committee reported that the new boiler ordered had been shipped and everything was in readiness to receive it and place in position. Pumps at water works are runing 16 hours.

Street committee reported placing of broken stone on east and west Howard street. Repaired street near Central Railroad depot. High street has been cleaned from Court house to jail. They also reported progress on Allegheny street crossings and sewer.

Fire and Police committee reported purchasing a flag and raising it over Public building. It was raised by Logan fire company with appropriate services.

Nuisance committee, reported placing different caution notices around where people have been dumping rubbish.

G. W. Reese complained to council of the condition of Spring creek from High street to Spring.

There will be a state convention of teachers here July 5th. Many visitors will be in town and as this is a great promenade it should be cleaned. Then it is a great menace to the general health of the community.

The complaint of Mrs. Mitchell was refered to street committee to investigate and report as was also request of Dr. E. S. Dorworth for side walk on East High street. Dr. Dorworth reccommended to council the making of an additional market day, suggesting Thursday. That would give three market days a week. Boro solicitor was ordered to draw up an ordinance and report at next meeting.

CASE OF BACKDOWN.

Lock Haven Normal School Team Cancels Her Game.

WITH THE BELLEFONTE ACADEMY

Her Manager Sent Word Here on Tuesday That "Examinations" Prevented the Game Which Was Scheduled For Wednesday.

AN ELEVENTH HOUR BACKDOWN

The long looked for game between the crack Bellefonte Academy team and the nine of the Lock Haven Normal school, which was to have been played at Hecla Park Wednesday afternoon to determine the amateur base ball championship of Central Pennsylvania, was cancelled at 8 o'clock Tuesday morning by the Normal school management.

At the above hour Manager Brisben, of the Academy team was called to the long distance telephone with Mr. Conley, the manager of the Odd Fellow's picnic at Hecla Wednesday and was informed that the Normal school team would have to cancel the game on account of "examinations."

Mr. Brisben informed their manager that the Odd Fellows had been put to considerable expense in arranging for the game and said that he thought the Normal should use every effort to play the game. Their manager said it would be impossible.

Then Mr. Conley took a hand in the conversation and asked their manager why he had not told him when the game was arranged one week ago that examinations would interfere. To this query the Normal school representative gave no satisfactory response and Mr. Conley then announced that the robins would have to nest again before he would ever make further arrangements with the Normal school for base ball games. When the Academy ball tossers learned of this plain case of backdown by the Normal there was profound disgust. For the past two weeks the game has been looked forward to with great anticipations and it would have been a red hot contest for the Academy boys were determined to win if winning was possible. Otto the crack short stop had stayed over in town to play this game and every indication pointed toward a spirited and exciting contest.

The Odd Fellows in town are loud in their condemnation of the Normal's action They had gone to the expense of having posters, buying base balls and providing transportation and expenses for both teams.

Manager Brisben will probably send a challenge to the Normal but there is now a sentiment against making any further arrangements with a team that cancels games at the eleventh hour.

Union Picnic at Hecla

On Thursday, June 23, St. Luke's Reform Sunday School of Lock Haven will hold a picnic at Hecla Park. Arrangements have been perfected whereby two classes of the Reform Sunday School of this place will also attend, Invitations will be sent to friends of the classes, and all who receive them are cordially invited to spend the day at Hecla. The amusements will be bicycle races and a base ball game between the Lock Haven and Bellefonte Academy. Musical program will also be rendered in the afternoon. All the amusements will be of an unobjectionable character and will be free to all on the grounds.

Held For U. S. Court.

The case of Valentine Breon, the second of the alleged Centre county counterfeiters, came to a hearing before United States Commissoner McLeod Saturday afternoon. It was shown in the evidence that Breon had concealed at his home about 50 spurious coins, ranging in denomination from dollars to dimes. Moulds and materials for counterfeiting were found in his house. Breon told the court that the moulds had been made by Bartges, who will have a hearing today.

Mr. McLeod finally announced that Bron would have to furnish $1,800 or go to prison to await trial. The prisoner broke down and wept when he heard the bail asked, saying that he could not furnish it. He was committed to jail to await trial before the United States court at Pittsburg the third Monday in July. —Altoona Tribune.

Public Still Waiting for the Inspired Song.

"There is a perfect flood of war songs on the market," said Mr. J. M. Christian, of Philadelphia.

"A music store man told me the other day that since war was declared nearly 100 brand new musical compositions had been put on sale, while scores of the old ones that did duty while our civil conflict was raging are again on tap. The new crop is mostly mediocre, but ultra patriotic. Some of the titles are: 'Avenge the Good Ship Maine,' 'Just as the Maine Went Down,' 'On the Shore of Havana, Far Away,' 'To Make Poor Cuba Free,' and so on. The same dealer told me that while the songs were multitudinous the buying public was a trifle shy. There were few big sales of any of the war ballads. A majority of customers still demanded popular, light music, and 'fifty of the latest songs for a nickle' still had the largest run.

'Saddest of all, the end is not yet. The dealers say that the music factories still have other pieces in course of construction and many completed. All that is needed to give them their debut is another naval victory or an engagement with Blanco and then they will be turned loose on a suffering public."

Pilot or Spanish Spy.

FORT MONROE, Va. June 7.—The auxiliary cruiser Harvard arrived at Hampton Roads at 4:30 this afternoon with a Spanish prisoner on board. He is believed to be a spy. The man was sent to Commodore Schley last week by Mr. Dent, the American Consul at Kingston, Jamaica. He was accompanied by an interpreter named Duval.

Consul Dent sent the man to Commodore Schley with information that he was a pilot, thoroughly conversant with the harbor of Santiago. When asked about the harbor his replies were so clearly misleading that Commodore Schley decided that the man was a spy. The commander of the fleet at first threatened to have him hanged, but finally sent him to the Harvard with instructions to take him back to Kingston.

When the Harvard reached Kingston Consul Dent insisted that some mistake had been made. On his urgent request the man was again taken abroad the Harvard and sent back to Commodore Schley. When the Harvard reached the fleet Commodore Schley again refused to be led into what he supposed to be a plot to blow up his fleet and sent the man North as a prisoner on the Harvard.

COUNTERFEITER CONFESSES.

Charles Hartges Tells of His Plans of Operations During His Hearing.

Altoona Times. June 7th: Charles Bartges, the third of the men arraigned for counterfeiting United States coin, in a preliminary hearing before United States Commissioner Alonzo P. MacLeod, was bound over for the United States court at Erie in $1,000 bail. He was committed, stating that, while his father was fully able to go his bail, he did not feel like indebting himself to that extent to his parent.

Bartges was arrested by United States Secret Service Agent M F Griffin, at his home in Loganton, Clinton county, on May 27. He was a tinkering watchmaker and in his shop after the arrest the secret service agent found a ladle, some metal, tools and mould frames. In a trunk in the front of the house was found a gate off of one of the moulds. A gate is part of the metal that is trimmed from the coin after the die has been cast. Griffin visited Bartges in jail and was told by the prisoner that he had made the moulds and part of the coin captured by the agent.

The commission allowed Bartges to make a statement in his own behalf, and it contained facts that will convict the man without further evidence. He had made the moulds found in his possession for Valentine Breon, one of the gang, at his solicitation, for which he had received no renumeration. He acknowledged having assisted Breon in the making of about twenty-five fifty cent pieces and a number of dimes. The work was done in the mountain fastnesses near the men's homes and in an abandoned mill. For the part he had performed Breon gave him $10 and 200 pounds of chop. Bartges emphatically denied having attempted to pass any of the spurious coin.

Rough Riders Saluted by Historic Cannons.

MORGAN CITY, La., June 2.—When Roosevelt's rough riders passed through this town two days ago each train was greeted with a salute from two cannons planted in front of the depot. These old guns bear stamped in their breach the mark of "1815." During the civil war they found their way from New Orleans to the ramparts at old Fort Chene, on Bayou Chene, this parish. When the Washington artillery were about to give their famous excursion here five years ago, Baron Natili had caused to be prepared old Fort Star, in order to lend a military aspect to the place. He was at a loss for guns to mount on his fort, when an old hunter and trapper told him that there were some submerged cannon at Fort Chene. The baron got together a crowd of men, and on a tug proceeded to what had been Fort Chene. Undergrowth and trees had destroyed all the formation of the place, and it was only after many hours of search and hard labor that these cannons were pulled from the mud and mire into which they had toppled. They were then mounted on Fort Star, and when patriotism became rampant among the citizens of Morgan City a committee was selected to investigate the old guns. Two were found to be serviceable, and every rumor of good news and every trainload of soldiers is treated to the roar of what was once one of the big guns of its day.—New Orleans Times-Democrat.

Married in New York City.

The many friends of Alva S. Grow, at one time associate editor of the Bellefonte Republican, but now bank examiner, will join in tendering congratulations to that gentleman on his marriage to Miss Annie W. Vaughn. The happy event took place on the 4th of June, in New York City. The bride's former home was at Asheville, N. C. Mr. and Mrs. Grow will arrive in Lock Haven in a few days and make their future home there.

The Spanish claim of credit for the brilliant feat of American valor in the Santiago channel only goes to show, as the man who had just listened to a fish story would say, there are lies and darned lies, and then Spanish reports.
